👤 PROFILE

I'm a 2nd-year B.Tech [🔗](#) CSE (AI & ML) student at VIT Bhopal with a passion for front-end development, UI/UX design, and AI-driven solutions. I have hands-on experience building responsive websites, designing user-friendly digital interfaces, and contributing to real-world research and social projects. Proficient in HTML, CSS, JavaScript, Figma, and Canva, I also bring strong communication and content design skills. I'm eager to work on innovative projects that merge design, AI, and usability to create meaningful digital experiences.

🧩 PROJECTS

Gesture-Controlled Game Interface – Web App [🔗](#)

Designed a gesture-based game control interface that detects and responds to hand movements via webcam. Used TensorFlow.js and custom-trained models to capture real-time gestures and control simple game actions on screen.

Tools: HTML5, CSS3, JavaScript, TensorFlow.js, Teachable Machine

Focus: Interactive UI, camera input processing, real-time ML [🔗](#) Live [🔗](#) | GitHub [🔗](#)

Solo Project | June 2025

Personal Portfolio Website [🔗](#)

Developed a responsive portfolio using HTML, CSS, and JavaScript to showcase skills and projects. Emphasized clean layout and mobile compatibility.

Used: VS Code, GitHub, Google Fonts, Media Queries.

User-friendly design, structured layout, cross-device compatibility

Tools

Focus:

Real-Time Emotion & Threat Detection Using AI and IoT-Based CCTV

Built a smart surveillance dashboard for detecting emotional distress and potential threats using AI models integrated with live CCTV feeds. Contributed to UI design and front-end using HTML, CSS, Flask/Jinja2.

Implemented real-time emotion recognition (CNN) and behavior analysis (LSTM) to flag aggression and fear. Focused on user experience, dashboard clarity, and responsive

Scikit-learn, TF-IDF, Git.

Tools: Python, Flask, HTML/CSS,

Team Project, VIT Bhopal University (April

2025)

EduStart – Startup Landing Page [🔗](#)

Created a modern, mobile-first landing page for a fictional EdTech startup. Prioritized clarity, usability, and visual design.

Google Fonts, GitHub

Tools: HTML5, CSS3,

100 Days of Code Tracker | Web App [🔗](#)

Built and deployed a playful habit-tracking app for developers to log daily coding progress over 100 days. Includes streak tracking, calendar view, motivational quotes, confetti animation, and real-time Firebase storage. Focused on UX, consistency, and daily engagement.

Tools [🔗](#) : HTML, CSS, JavaScript, Firebase Realtime DB, Confetti.js

Focus: Habit-building UX, streak logic, animated UI, mobile-first design

PROFESSIONAL EXPERIENCE

- 06/2025 – present **IIT Kanpur | Mentor: Prof. Shikhar Misra**
Summer Research Intern
- Developing a unified web interface to integrate ML models from research on metamaterials, band structure clustering, and scientific NLP.
 - Working with **Flask, Python, HTML/CSS**, and **TensorFlow** to create user-friendly dashboards for model interaction.
 - Gaining hands-on experience in applying AI to interdisciplinary scientific research.
- 06/2025 – present **Excelerate**
Prompt Engineering Research Intern
- Selected for a virtual research internship focused on prompt engineering and integration in AI workflows.
 - Engaging in project-based learning starting June 16, 2025, through structured dashboard tasks and guided experimentation.
 - Building understanding of prompt design, task automation, and integration with AI tools.
- 04/2025 – present **Shwetansh Welfare And Educational Trust** 
Front Office Manager Intern
- Handled communication, visitor coordination, and public content.
 - Contributed to social media and digital content creation using Canva.
 - Assisted in web content layout and presentations for awareness programs.
 - Developed attention to visual clarity, communication, and branding.

EDUCATION

- 2023 – present
Sehore, India **Btech**
Vit Bhopal University
I am a 2nd-year B.Tech  student at VIT Bhopal, specializing in Computer Science and Engineering with a focus on Artificial Intelligence and Machine Learning.
- 2021 – 2022
Kanpur, India **Higher Secondary Certificate**
The Chintels School
scored 92% in class 12th(Science Stream - ISC Board).
- 2019 – 2020
Kanpur, India **Secondary School Certificate**
The Chintels School
Scored 86% in class 10th(ICSE Board).

SKILLS

Technical & Digital Skills

- **Front-End:** HTML5, CSS3, JavaScript (Basic)
- **UI/UX Design:** Figma, Canva
- **Tools & Platforms:** VS Code, GitHub, Notion
- **Design Principles:** User-centered design, responsive layout, wireframing
- **Soft Skills:** Communication, teamwork, creativity, attention to detail
